

Team 14

Project Checklist

1. User is able to create a new account if they don't already have one.
2. User can't sign up with a existing username.
3. User is able to log in to their account.
4. User is able to log out of the account.
5. User is able to access their home page.
6. User can add ingredients to their current ingredient list (and update to database).
7. User is able to search to see all the recipes they can make using their ingredients. The recipe will then display:
 - a. The recipe name
 - b. An image of the recipe
 - c. A description
 - d. The instructions
 - e. Prep time
 - f. Cook time
8. All information about the user will update in database.
